SUMMARY

I am a Software Engineer with a background and work experience in Industrial Engineering.

In my previous job I worked closely with software suppliers doing Business Analysis and Quality Assurance to implement new software for the factory.

This gave me the opportunity to experience the full life cycle of a software and helped me to always be aware of clients' needs.

SKILLS

Languages: HTML | CSS | JavaScript | Python | SQL | EJS

Libraries and Framework: Node.js | React.js | Express.js | Django | Bootstrap | Tailwind

Databases: PostgreSQL | MongoDB

Utilities: Git | Github | CLI

Various: Project Management | Business Analysis | Quality Assurance
